NO MORE PILES

Hem-Rold Does Its Work Theroughly, No Return.

The following program was given at the meeting of Washington grange Fri-If you have piles, you know that the usual treatment with salves, support Orchestra tories or operations can't be depended upon for more than temporary relief.

There are 3 Features in Fawford Ranges

which make them superior to any others

- 1. The Single Damper
- The Oven heated by cup-joint flues
- The Two Hods in the base

Either of these features is worth the price of the range. The Single Damper is the greatest help in cooking ever invented. One motion -push the knob to "kindle," "bake" or "check"-the range does the rest.

The Oven is heated by the cupjoint flues all over alike; no "cold corners," no "scorching spots". Ouickest and surest baker.

The Two Hods in the base (patented) is a wonderful trouble-saving feature. The ashes fall through a chute into a Had which is easy to empty. The Coal Hod is beside it.

Gas Ovens and Broilers for end or above range if desired.

Ask the Crawford agent to show you and write us for circular.
